

Twinbin 170

The TwinBin **award winning** design, provides a solution to a growing need in public spaces to, not only, collect waste but also separate recyclable items like plastic bottles and newspapers. It does this in a single compact and robust unit in a design that sits well in both traditional and contemporary environments.

Landfill and recycling...
...have it both ways

- Contains two 85 litre capacity bins
- Choice of WRAP compliant colour coded apertures and graphics as standard
- Front opening design allows emptying without lifting
- Concealed hinge
- Litter (without insert) aperture suitable to accept 12" pizza box

- Moulded drainage channels
- Moulded through ground fixing holes for bolt down option
- Suitable for internal concrete ballast fitted by customers at time of installation
- Panel for personalised graphic or company logo (248mm x 200mm)

Black base made from 100% recycled plastic*
*Subject to availability

TwinBins are manufactured in three parts, the main body and two doors.

This provides additional options for personalisation that includes producing one or both doors in a different colour to the main body.

Narrow footprint to minimize obstruction
