AKVA Shelters

From The Akva shelter models you can find both a stylish bus shelter and a bicycle shelter. Combined, the shelters are an excellent choice for park-and-ride applications. Akva shelters can be used to build park-and-ride solutions of unified appearance.

AKVA Bus Shelter

The simple and elegant Akva shelter ensures an unobstructed view of the traffic. The shelter can be equipped with a bench, bulletin board, litter bin, and ash-tray. The walls are made of tempered glass and roof made of polycarbonate roofing.

AKVA Bicycle Shelter

An Akva shelter accommodates ten bicycles; the standard equipment includes a Treo bicycle rack. The walls are made of tempered glass and roof from polycarbonate roofing sheets.

Akva shelters:
