

Edge

Edge is a modular recycling bin serie. It is designed for indoor use and is a stylish solution for shopping centres, airports, shops and offices, to name a few examples. Flexible modular system allows to form required waste collection point for any need.

Edge 100

Standard colour options of the bins are the combination of stainless steel body and metallic black pedestal and lid, or fully powder coated bin in metallic black colour. The metallic black powder coating is with a structured finishing.

The Edge bin can be customized with different colours. Minimum order quantity per colour and extra costs for customization may arise.
