

Steora CITY

Steora City smart bench is the world most powerful bench ever created.

City shares same technology and core features as the Classic model, but with wider set of additional options.

When equipped with optional LCD display and advanced AI camera for precise DOOH advertising, City becomes a perfect option for high frequent locations, thus creating revenue and ROI - already proven in several cities around the world.

Our new City model also provides fast wireless charging and network of reliable sensors which gather information in bench surrounding - all packed in self-sustainable and environmentally friendly product with refurbishing option.

Steora CITY with add on display and camera

Construction

Dimensions: W: 181 cm ; D: 45 cm ; H: 51 cm. Weight: 65 kg.
Materials: alu-zinc, aluminium, hot-dip zinc coated steel [EN10346], galvanized low carbon steel [ISO 2081]

PV modules

IK08 (EN 62262) vandal proof
99W power output

Li-ion battery pack

Low-temperature resistance
Advance BMS

2 x Qi wireless charging

Supporting all Qi phones, watches and earbuds
Smart energy-saving standby system

LED ambient light

Automatic ON/OFF system
Time adjustable depending on the season

Seating surface cooling system

Air cooling technology
Automatic temperature trigger

Sensors

PHT sensor – pressure, temperature, humidity
Energy sensors, Users counter (number of seating)

Real-time GPS location

Online alarm if bench location changes
Location visible over Solos Smart City platform

Internal server communication system

Included 5-year connectivity with Solos Smart City platform
Online product maintenance and updates

Battery status indicator

Integrated into the bench body
25%, 50%, 75% and 100% status

Detailed technical specification can be found in Steora City datasheet.

ADDITIONAL OPTIONS

| | CLASSIC | CITY | CYCLO |
|--|---------|------|-------|
|  Backrest With integrated PV modules 66W power output | ● | ● | ● |
|  Backrest and armrest With integrated PV modules 66W power output | ● | ● | ● |
|  Flowerpot Soil moisture sensor | | ● | ● |
|  4 x USB fast chargers Apple fast charging Qualcomm quick charge Samsung adaptive fast charging | ● | ● | ● |
|  Air quality sensors PM2.5, PM10 No sensor Ozone sensor | ● | ● | ● |
|  Noise sensor Sensor range from 25 dB to 130 dB | ● | ● | ● |
|  Wi-Fi hotspot system Editable homepage and Wi-Fi name Support SIM or ethernet connectivity | ● | ● | ● |
|  Seating surface heating system Works during winter days Automatic temperature trigger Requires hybrid module | ● | ● | ● |
|  Hybrid module Using grid power for 0/24 operation Designed for long winters without sunlight | ● | ● | ● |
|  LCD display 19" outdoor LCD display Using grid power for 0/24 operation | | ● | |
|  AI/ML LCD display 19" outdoor LCD display AI camera with pedestrian's info | | ● | |

Steora CITY with built in display and camera

Each Steora bench can be upgraded by a variety of additional options, making every model fully modular and even more advanced.

There are mechanical add-ons, such as smart flowerpot, backrest and armrest, as well as electrical add-ons, such as smart USB chargers, air quality sensors, hybrid module and other.

Every additional option is designed, developed and intensively tested inside Include, ensuring highest reliability and quality even in severe conditions after several years of usage.

Most of the additional options can be integrated into the bench even after the installation process. Any future developed additional options are also going to be compatible with previously installed Steora benches.

SOLOS

Solos is an advanced Smart City dashboard which works as an operating system in a browser.

Just like on your computer, after logging in to Solos you get to the desktop page where you can explore all your existing applications. Each application controls a different product or same set of features from different products. Each time you buy a new product from Include with different features, new apps will appear on Solos desktop page and provide control to product features.

Thanks to Solos, cities and municipalities can now easily monitor every part of their public spaces – with just one platform.

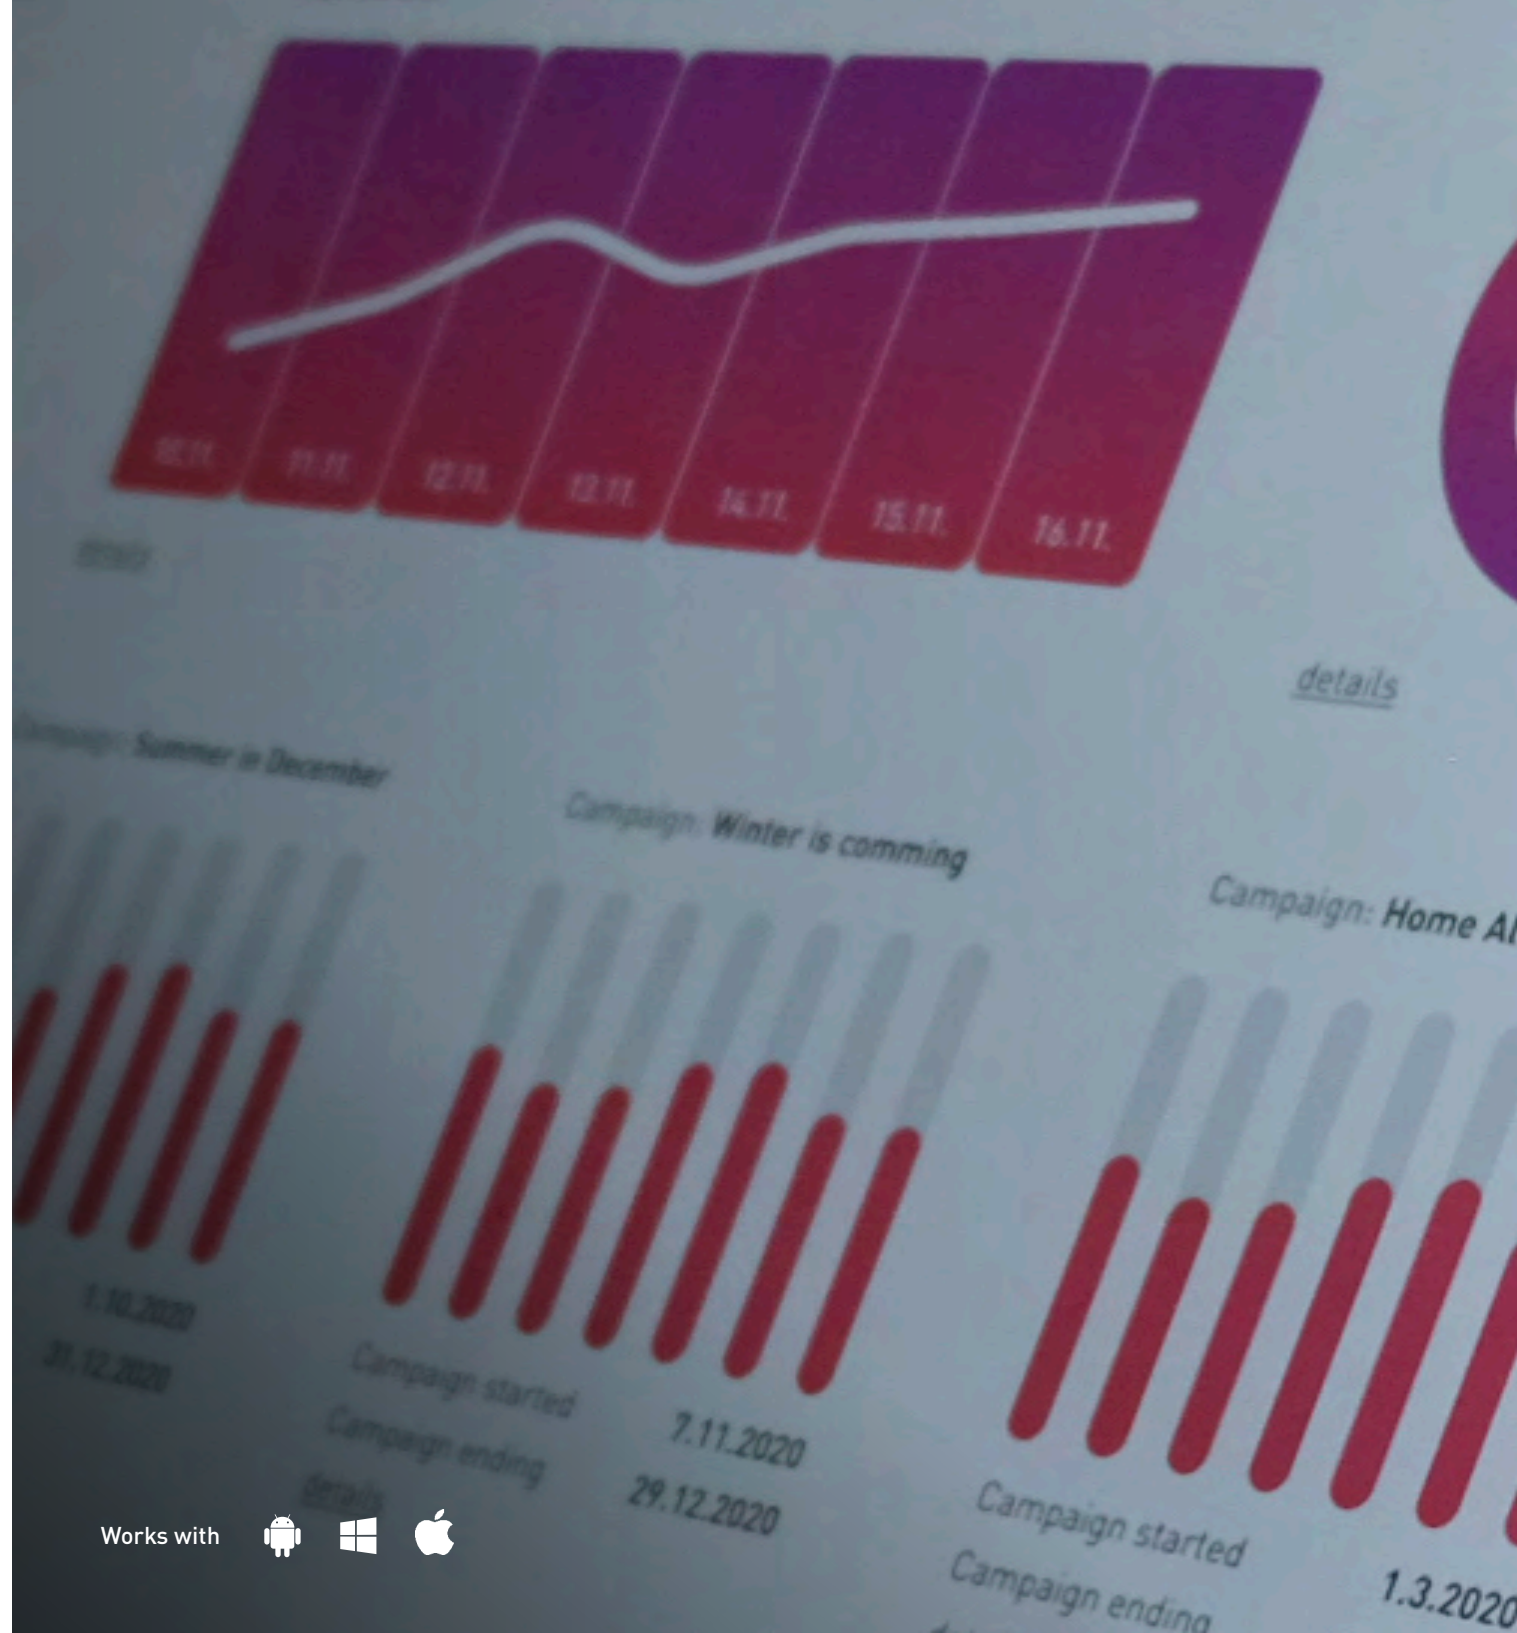

With API integration key specific Solos data can be integrated in other applications or websites.

Each Steora bench comes with 5-years connectivity to Solos from the day of purchase.

Works with

Setup

Solos Setup app provides simple and fast administration of your profile, organization or products. With Setup app, you can easily manage your organization, user roles and user permissions.

Manage

Manage app now enables you to manage all your products at the same place in no time. Change product configurations, name, or any other setting in just a few simple steps.

Sensors

Solos Sensors app provides real-time data from all connected products anywhere in the world. All collected information are presented in chart forms, with the option to see the data in custom time range. All the data can be exported in an .xls or .pdf format.

Support

Support app provides all Include's support in one place. Using Support app users can find information and manuals for products installation and maintenance, check their warranty status, report an issue, and even watch instructional videos.

Advertise

New experience in managing DOOH ads. Create new campaigns, choose locations and duration in a few simple steps and you are ready to go. Thanks to our advanced AI camera module, you can now track info about pedestrians, such as the number of pedestrians walking or looking at the display, and even their gender. For the first time in DOOH, you can use filters to choose optimal locations for the audience walking in front of your displays.

Waste management

Waste management app brings a revolution in managing waste. Using Waste management app, waste collecting companies can be aware of the exact waste level status in each Terra container and create the optimal route to collect waste from the entirely full containers.
