

## Bench Roma

The ROMA bench is part of the ROMA series which takes advantage of the strength and plasticity of the concrete material. The organic forms interact with many types of environments: public spaces, commercial buildings and surroundings, interiors as well as exteriors. With the optional LED lighting on the inside of the top curve, the bench will present a sculptural element even at night. The serie Romais included in the permanent collection of The Design Museum Denmark, in Copenhagen since March 2016.

Design: KSA DESIGN + Grønlund

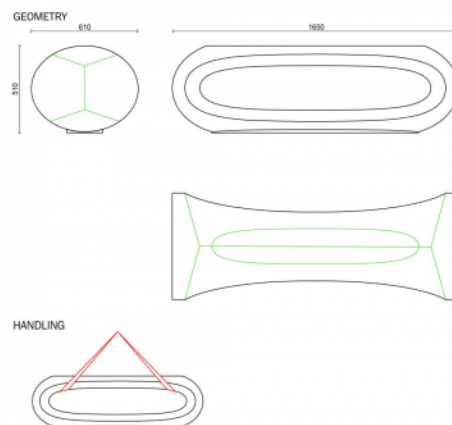

### Accessibility

Perimeter is easily noticeable with white cane.

### Technical

### Measurements

✓ 165x61x50 cm - 820 kg

### Anchoring

✓ Free standing
